VINEYARD SOURCES

78% Chenin, Chardonnay, Sultana
California

The majority of our Blanc de Blancs is made up of neutral grapes which provides a strong base and low phenolics.

15% Sauvignon Blanc
Clarksburg AVA, California

An introduction of high quality Sauvignon Blanc fruit into the blend brings aromatic complexity and a re-balance of acidity.

7% Muscat Alexandria
California

By adding a touch of Muscat to the blend, we can provide an "impression" of sweetness without the need to leave high residual sugar. It also has the added bonus of high aromatic quality.
