

# ORO BELLO

## 2019 ROSÉ OF PINOT NOIR

### ORO BELLO

2019  
ROSÉ OF PINOT NOIR  
RUSSIAN RIVER VALLEY | SONOMA COUNTY

**FOSTER VINEYARD**  
Located in the heart of the Russian River Valley, Foster Vineyard is characterized by a cool morning fog.  
SOIL: Huichica Loam | CLONE: Martini

#### WINEMAKING

This Single Vineyard Rosé of Pinot Noir was hand harvested at night on September 19th, 2019 at a brix of 22.9. No sulfites were used during transportation to avoid color extraction. The grapes were whole cluster pressed and then cold settled extremely clean. The juice was slowly fermented at 62°F for over 14 days.

#### CRISP & LIVELY

A lean, dry wine style with aromas ranging from tangerine, grapefruit, strawberry and roses. This is a very delicate wine with a light pink color.

Alc: 13.5% by VOL  
TA: 5.5 | pH: 3.6

**INGREDIENTS:**  
Grapes and yeast

**NO ADDED:** Artificial Color, Sweeteners, Gum Arabic or DMDC  
**GLUTEN FREE** **VEGAN FRIENDLY**

Only Natural Ingredients!

No Artificial Additions!

#### WINEMAKING

- Hand Harvested
- Brix of 22.9
- Whole Cluster Pressed
- Cold Settled
- Fermentation @ 62F for over 14 days

Unlike most rosés (that are notorious for using a lot of chemicals to top drop bitterness and color like PVPP or carbon, as well as other fining agents), our wine contains only grapes and yeast and the absolute minimum amount of sulfites necessary.

#### TASTING NOTES

A lean, dry wine style with aromas ranging from tangerine, grapefruit, strawberry and roses. This is a very delicate wine with a light pink color.

PAIRS WITH  
SUSHI

A perfect match for when it's too hot to cook.

#### VINEYARD SOURCES

100% Pinot Noir  
Foster Vineyard  
Russian River AVA, California

Foster Vineyard was planted in the early 2000's and located in the Russian River Valley. The Russian River Valley appellation lies at the geographical heart of Sonoma County and is best known for its Pinot Noir. The soil type at Foster Vineyard is Huichica loam. The fog rolls in from the Pacific Ocean and layers the valley, causing diurnal temperature swings of 35 degrees. The warm days and cool nights extend the maturity and allow the fruit to reach their optimal flavor development.

**CASES PRODUCED**  
600 \*And 200 kegs
